### Mike Donnelly your EverGreen Party Candidate for Wetaskiwin-Camrose

" I would like to run for the EverGreen Party as the party holds a lot of the same values that I have myself. I believe that under the current government there are quite a few issues that need addressing, such as the healthcare problems we experience with the limited number of physicians and long waiting lists. I also feel that the larger corporations need to be held more responsible for harm to the environment.

I am concerned for the average person's ability to afford the necessities of life. I feel that we need to focus a lot more on the 'missed votes' of those people who choose not to vote because they have the 'my vote won't make a difference' attitude. If we can get these people on board, we can begin to sway votes our way.

I would be a 'watchdog' for the average Canadian whose voice does not seem to be heard. I would look at all the options we have for changing the current health situation in the Camrose area.

With the ever rising costs of necessary services (electric, gas), I would fight for some form of government price regulation as well as imposing a fixed percentage increase they would have to abide by.

My position would always be to listen and address concerns of my constituents as well as all Canadians. "
